SUCCESS represented in large numbers. New Haven could send such men as Dave Fitzgerald, Frank Coyle, J. Harmar Bronson, Tex McCann, Vincent Reina and Captain Doberty, all of whom are strong advocates of boxing, and who have been affiliated with the promoting end of the sport during the past dozen years. Bridgeport's delegation could include Dick Howell, Billy Hogan, Terry Lee and Harry Quinn, while Waterbury and Meriden might send George Mulligan and Mike We claim not.

"Men get hurt in every game they attempt. Deaths have resulted from almost every active game we know. And they will as long as the earth goes round. In boxing men will get burt but if the game is placed upon.

The Meriden Record has been a strong advocate of boxing for a number of years. What its sport expert has to say in regard to the boxing bill is worth reprinting. He says among

"Marcus H. Hoicomb is and has been a war governor. This fact is unquestioned. He labored day and night through the great conflict which has passed, always seeking to do something toward the successful promotion of the great struggle in which the country was involved. Representing Connections and that they know it as a real sport of the uni-

State boxing leaders who are naturally interested in the bill recently presented to the legislature at Hartford which would legalize the sport in this state are discussing the possibility of Governor Holcomb signing it should it once get through the house and senate. The governor's views on boxing have never been made quite clear, although he is known to be a lover of clean sports. There seems to be considerable uneasiness regarding his attitude, and as far as has been ascertained the promoters throughout the state are really worried.

When the bill comes up for discussion within the next week or two an effort will be made to have every city where boxing has been staged with success represented in large numbers. New Haven could send such men as less would not have stood for it durorganizations, the clergy and everyone

> almost every active game we know. And they will as long as the earth goes round. In boxing men will get hurt, but if the game is placed upon a legal basis and conducted by men who know the game, and by men who like the game and want to see it exist. It will be no more dangerous than other sports—even if it is possible that it is already more dangerous. We don't think it is.

was involved. Representing Connecticut, the munitions center of the universe, his part was not a small one. His able leadership brought together a force of men that overcame all obsta-

FINANCIAL AND COMMERCIAL

MARKET WAS STRONG. New York, Peb. 17.—Revival of public interest, albeit in moderate degree, was a factor of considerable importance in today's strong and broad stock market, the movement assuming almost the largest dimensions of any session

Better trade and industrial condi-tions, as outlined in the various re-ciews and surveys over the week end, imparted a feeling of confidence and impelled further extensive converting

of snort contracts.

Trading was again completely over shadowed by the heavy turnover i clis, motors, equipments and tebacco-the first named far outstripping a other issues in point of volume, but eacting very generally in the late General Motors featured the autom

bile division at an extreme gain of si-points, Chandler, Studebaker, Pierce Arrow and Kelly-Springfield Tire als

June Style in a February Maxwell

THE MAXWELL car of today is so vastly improved in appearance that many persons believe we have produced a new model. That is not the case.

It is the same chassis, scarcely with a change, on which 300,000 Maxwells have been built.

But it is a better looking car. It is finer in finish; angular lines have been straightened out; fenders improved; bonnet simplified; cowl made flush with the top line of the body; seats thickened by three inches; circassian dash installed; gas tank slung in the rear, etc.

There are twenty-four things done to make it more beautiful.

We made the Maxwell simple to start with five years ago. Then we kept on making and making these cars all alike. We have now completed 300,000 of them.

There is logic in doing one thing and doing it well. We have followed that logic. And results tell today.

Maxwells have always been noted for their reliability. Now they will become noted for their beauty.

And today we are in a position to give you a June style in a February Maxwell, which a year ago seemed quite out of the question on account of the war.

Come and see the latest Maxwell.
